Electrol 53

General Purpose Safety Solvent Cleaner

ELECTROL 53 - is a clear water white solvent designed for use in degreasing and cleaning applications where water based products are ineffective or cannot be tolerated. ELECTROL 53 - contains no water and evaporates quickly and completely to leave no residue.

FEATURES

- Safe - Flash point above 65°C
- Fast Acting - Strong solvent action
- Quick Drying - Dry within minutes
- Economical
- No mixing
- No residue

ELECTROL 53 WHEN USED IN ELECTRICAL MOTORS

- Does not attack electrical insulating plastics or varnishes.
- Quickly removes grease, oil, dust and carbon deposits.
- Can be used by soak tank, spray or swab cleaning methods.
- Evaporates rapidly thus avoiding long drying out periods prior to reuse of the motor.

OTHER APPLICATIONS

Cleaning tools & equipment, Metal cleaning prior to painting, Workshop floor mop cleaning where quick drying to prevent oil or water slip hazards.

METHOD OF USE

ELECTROL 53 - is always used in the concentrated form straight from the container. Normally used in a wipe-cloth operation. If used as a spray, use coarse low pressure spray to minimise atomisation of the product in the air.

HANDLING

As with all solvent products, care should be taken to avoid prolonged or repeated skin contact or repeated inhalation of vapours. Use the product with adequate ventilation. Do not smoke in the immediate vicinity. Keep out of the reach of children. For further details please refer to the product material safety data sheet.

PACKAGING

ELECTROL 53 - is packed in non returnable 15 litre and 205 litre steel drums.
