1987 JUN 21

Dear George,

On Monday 18th May we had our Maxitherm Mini D boiler inspected by the D.L.I. Inspector. The inner surfaces of the boiler were completely clean and free from surface scale and rust etc. This is our twelfth year of operation on Tandex treatment and the results have always been of the same standard.

Sorry I overlooked informing you of the inspection this year.

Yours faithfully

H M Brownrigg
PLANT MAINTENANCE OFFICER
