Tandex Chemicals,  
P.O. Box 166,  
BAYSWATER, Vic., 3153.

Dear Sir/Madam,

I have been employed at S.P.C. Limited as a Boiler Attendant for the last twelve years. S.P.C. Have used Tandex Chemicals since 1960.

We have two Babcock and Wilcock water tube boilers that are about 36 years old and a Trevor water tube Boiler of 6 years old. All are treated with Tandex Chemicals.

The Government Boiler Inspector has always found them to be free from scale and corrosion.

The back-up service provided by Tandex Representatives George Bell, Joe Gross and Robert Sands is excellent. They visit our plant on a regular basis to check Boiler water and our water softeners.

We at S.P.C. Ltd have no hesitation in recommending Tandex Chemicals to anyone who wants the best in boiler water treatment.

Yours faithfully,  
S. P. C. L I M I T E D

*Don Whyte.*

DON WHYTE  
Boiler Attendant.
